Cyan - 300ml	\$187.00		\$0.74	
Magenta/Yellow	Printhead	\$119.00		
Photo black/Cyan	Printhead	\$119.00		
Matte black/Chromatic red	Printhead	\$119.00		

All prices are estimated street prices

(1) One m² of fully printed area.

(2) Ink + ph (printhead) cost is the result of adding up black ink + black ph cost and color ink + color ph cost.

(3) Number of m² that can be printed with one set of 6 inks. Small figure ("min") is for the color most used, the first to be replaced.

(4) "Ink + ph price per ml" considers the price of the cartridges and the price of the printhead (printhead warranty life is 1000 ml).

Formula used: Ink + ph price / ml = cartridge price / cartridge capacity + printhead price / printhead warranty life.
