

Custom Indoor Solutions

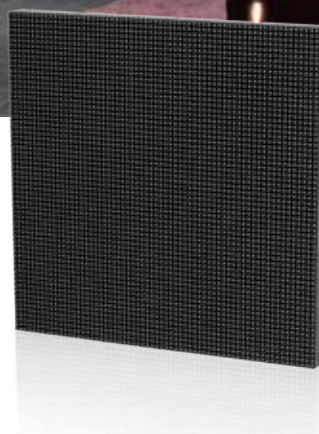

Parramatta Leagues Club Parramatta NSW

Parramatta Leagues Club is situated in the heart of Western Sydney and a prominent entertainment venue for patrons and their families. Looking for an eye catching draw card to their Golden Dragon gaming lounge they decided to install an LED archway to greet their guests upon arrival.

Solution - a custom built archway screen capable of running animation and promotional content on a continual loop.

"hitting so many dead ends with other screen companies, it was a breath of fresh air to deal with the Aurora team. They made this project a possibility and understood the importance of the quality we expected."

Alex Arias "Spotty Dog Creations"

SPECIFICATIONS

ITEM TYPE

TECHNICAL PARAMETERS

Pixel size	1.5mm * 1.5mm
Pixel pitch	1.875mm
Module size	240mm W * 180mm H
Cabinet size	480mm W* 540mm H * 80mm D
Install mode	Hanging/Wall Mount/Stand
Pixel density	284444 dots/m ²
Brightness	>900 nit
Gray scale	16384 - 14 / 16 Bit
Drive mode	1/30 scanning, constant current
Refresh rate	>3840Hz
Viewing angle	H>140°, V>140°
Best viewing distance	2-100m
Source compatibility	CVBS, YC, YUV, RGB, DVI, SDI, HD-SDI, HDMI
Control method	Synchronous
Power parameter	AC220V/110V±10%, 50-60Hz, single phase. 4.2V output
Power consumption	Max: 650W/m ² , Average: 220W/m ² related to brightness and displayed content
Life span	> 100,000 hours
Warranty	3yrs / 1yr onsite
Working temperature, humidity	Temperature: -20°C—65°C; Humidity: 10%—90%RH
Net weight rate	<35Kg / m ²
IP grade	IP43
Certifications	CE, UL, CCC, RoHS, FCC, ENS
Service Method	Front Service
