

VMAX Tab-Tension 3 Series

ISF Certified Motorized Projection Screen

Product Description

Elite Screens' **VMAX Tab-Tension 3** is an electric/motorized projection screen with CineWhite® ISF matte white flexible material. It has a tab-tension design to pull and stretch the surface on all sides to achieve a flat and taut projection surface suitable for ultra, short, and standard throw projectors. The material CineWhite® ISF is ISF Certified for achieving accurate color reproduction in a dark room environment. Its elegant white arc-shaped housing allows for flush wall mounted and ceiling installation.

Product Design & Features

- Moisture resistant, durable arc-shaped white enameled housing
- Versatile flush wall/ceiling installation options for any application
- Floating brackets also included for wood stud installation
- Tab-tension design helps maintain a flat, taut projection surface that is ripple-free
- Ships fully assembled with standard 3-prong power connection ready to plug and play

Control System

- Includes handheld Infrared (IR) and Radio Frequency (RF) remote controls, and a wall box controller for manual on-wall operation
- User-friendly programmable vertical drop position
- Wall box controller is detachable for a clean look while maintaining RF & IR functionality
- Built-in selectable channels allow one RF remote programming to control multiple screens and prevent interference
- 12v trigger feature allows the screen's operation to synchronize with the projector's power cycle
